Position: Delivery Manager

Department: Project Delivery

City: Sydney, NSW

Company & Position overview:

Verdia is transforming how commercial, industrial and Government customers embrace energy efficiency and make significant savings. We are looking for a suitably qualified, talented and hardworking Delivery Manager to join our Melbourne based team and revolutionise the marketplace. Candidates should be passionate about quality and customer service in everything they say and do.

This is a wide ranging role that will be responsible for the delivery of energy efficiency projects across Victoria and as required, across Australia. You will be exposed to all facets of the assessments and delivery of energy efficiency assets, from the collection of energy use data and high level solution design , through to the installation and quality assurance process.

Skills Required:

- Relevant Electrical qualifications enabling company Electrical Contracting License.
- In-depth knowledge of AS3000, AS5033 and other relevant standards
- Extensive solar, lighting, and electrical distribution systems and controls experience
- Excellent written and verbal communication skills
- Demonstrable confidence in communicating and building strong internal and external client relationships
- Strong attention to detail coupled with the ability to remain task focused
- Passionate about and demonstrable strong OH&S governance
- you will have at least 5 year's experience in the energy efficiency or building services sector,
- be highly proficient and absolutely passionate about quality.
- you will know AS3000 and AS5033 intimately
- be proficient in the design and delivery experience of LED lighting, Solar, HVAC or similar industrial and commercial systems
- you must have a high level of project management experience in the private and public commercial and industrial sector
- you will be a driven self -starter with the ability to drive and deliver multiple projects of varying complexity, concurrently across multiple sites.
- Motivated and able to work autonomously with little direction.
- You will have attention to detail coupled with solid technical site experience to undertake and document site investigations and scope and deliver a project from inception to handover
- Presentable with strong client facing skills and the ability to communicate and coordinate with multiple internal and external stakeholders at all levels

Key Responsibilities:

- Support, complete and assist with all project delivery
- Support advisory, finance and delivery teams as necessary
- Complete site audits, investigations and data gathering

- Assist with compiling technical documentation, including RFQ, feasibility reports, project engineering documentation
- Management and delivery of lighting and solar PV projects from inception to completion on time and on budget including, contractor and client stakeholder management, external sub consultant
- Maintain a high standard of professionalism and communication
- Travel as and when required

If you are ready to join the Verdia team, please email verdiaemployment@verdia.com.au and include your current CV and cover letter. Applications without these documents will not be considered.
