Position: Project Director

Department: Project Delivery

City: Sydney, NSW

Company & Position overview:

Verdia is transforming how commercial, industrial and Government customers embrace energy efficiency and make significant savings. We are looking for a suitably qualified, talented and hardworking Project Director to join our Sydney based team and revolutionise the marketplace. Candidates should be passionate about quality and customer service in everything they say and do.

This is a wide ranging role that will be responsible for the delivery of energy efficiency projects across NSW & ACT and as required, across Australia. You will be exposed to all facets of client engagement and delivery of energy efficiency assets, from the initial client engagement, through to the installation and quality assurance process.

Skills Required:

As the ideal candidate, you will be able to demonstrate the following:

- Extensive solar, lighting or HVAC project management experience
- Excellent written and verbal communication skills
- Demonstrable confidence in communicating and building strong client relationships
- Strong attention to detail coupled with the ability to remain task focused
- Passionate about and demonstrable strong OH&S governance
- Confidence in communicating and building strong client relationships
- You will have at least 5 years' experience in the energy efficiency or building services sector,
- You must have a high level of project management experience in the commercial sector along with a solid technical background,
- Be highly proficient and absolutely passionate about quality.
- Be proficient in the design and delivery experience of either Solar, LED lighting, HVAC or similar disciplines,
- You will need to have the capacity and ability to drive and deliver multiple projects of varying complexity, concurrently across multiple sites.

Key Responsibilities:

- Provide technical leadership in the fields of Solar, Storage, LED lighting, Power Factor Correction and any other energy efficiency equipment or software.
- Work closely with the advisory team to identify and or develop, deliver and maintain appropriate energy efficiency solutions.
- Work closely with the advisory team to deliver appropriate technology solutions for customers.
- Establish and maintain delivery standards across the organization in relation to design and implementation standards.
- Deliver high quality installations of energy efficiency products.

If you are ready to join the Verdia team, please email verdiaemployment@verdia.com.au and include your current CV and cover letter. Applications without these documents will not be considered.
